## Press Release

### IET Seminar “UK Fracking - Managing the Risks” Tuesday 20<sup>th</sup> May 2014

Defend Lytham are pleased to announce that Mike Hill, Chartered Engineer from St. Annes and BREF EU Commission Member MTWR (incl. shale gas) will be one of the speakers at a Seminar held by the Institution of Engineering and Technology on Tuesday May 20<sup>th</sup> 2014.

The main speakers are:-

Professor Paul Younger, for the RS/RAEng Working Group on Fracking  
John Blaymires, CEO IGas  
Andrew Dobbie, OUGO  
Michael Hill, Chartered Engineer  
Prof Sharon Clarke, Manchester Business School

The RS/RAE produced a report in June 2012 “ A Review of Hydraulic Fracturing “ which made 10 recommendations, but as only one of these has actually been implemented by the government, the debate should prove lively and informative.

And with the recent announcement of 8 shale gas wells to be hydraulically fractured in the Fylde, this topic will be of interest to all watching the development of this new industry.

The meeting will be held at: -

Daresbury Laboratory, Warrington between 12:15 and 17:30
